# Economic Summit 2008

## *Taking the Pulse of the U.S. Economy*

A Conference for High School Faculty

The performance of the U.S. economy is the story of the day. Many questions have arisen. What signs of renewed stability reside in the financial markets? How close is a full recovery from the subprime mortgage fallout? Are inflationary pressures mounting or declining? Is the stage set for economic expansion or contraction?

The 2008 Economic Summit, *Taking the Pulse of the U.S. Economy*, will address these questions as well as additional factors impacting the economy. Sessions will also provide suggestions for classroom activities.

### **Specific topics include:**

- Overview of the U.S. Economy
- Fiscal Developments and Their Economic Implications
- Challenges in Financial Markets
- Rise and Fall of Subprime Mortgages
- Immigrants in the U.S. Economy:  
A Host-Country Perspective
- Regional Economic Outlook
- Critical Issues in Energy
- The Role of the Dollar
- Monetary Policy: A New Tool
