Report Item 1: Annual Report to Shareholders

A holding company that prepares an annual report for its shareholders and is **not registered** with the Securities and Exchange Commission (SEC) must submit the number of copies of the annual report specified by the appropriate Reserve Bank with its FR Y-6. If the annual report is not available by the submission date, the holding company must inform the appropriate Federal Reserve Bank that it will forward its annual report to the appropriate Federal Reserve Bank as soon as practicable.

A top-tier holding company that is not registered with the SEC must indicate on page 1 of the form (per check box at lower left-hand corner) that an annual report to shareholders: (a) is included with the FR Y-6 report, (b) will be sent under separate cover, or (c) is not prepared. An annual report is to be submitted to the Federal Reserve only if such a report is created for shareholders. Holding companies do not need to create an annual report if such report is not normally created for shareholders.

Holding companies may be required to submit, at the discretion of their appropriate Federal Reserve Bank, free-form comparative financial statements, footnotes and any other information that is deemed necessary by their appropriate Federal Reserve Bank to fulfill its supervisory responsibilities. The Federal Reserve may request that such financial statements and footnotes should be audited by an independent public accountant.

Report Item 2a: Organization Chart

Submit an organization chart indicating the Reporter and its interest in all entities as defined below. This includes: (a) companies reportable on the *Report of Changes in Organizational Structure* (FR Y-10) and (b) additional companies reportable on the FR Y-6. The Organization chart may be in a diagram or list format. It should disclose the:

1. Full legal names (use abbreviations **only** if part of the legal name);
2. The Legal Entity Identifier (LEI) (if the entity already has one)¹
3. Physical address (i.e., city and state/country) of each entity;
4. State or country (if foreign) of incorporation of each entity. Companies that are incorporated or organized in the U.S. should only report the state of incorporation. Companies that are incorporated or organized outside the U.S. should only report the country of incorporation. The state or country (if foreign) of incorporation is required for all business organization types. For instance, limited liability companies should report the state or country (if foreign) in which they filed their articles of organization;

¹ The top-tier holding company (Reporter) must provide the LEI for itself and any subsidiary reportable on the FR Y-6 if they already have one. If the Reporter or any of its subsidiaries do not have a LEI, it is not required to obtain one. See the FR Y-10 Glossary for definition of a "Legal Entity Identifier (LEI)."

5. Intercompany ownership and control relationships, (including any interest held by a Reporter in an entity through more than one direct holder); and
6. Percentage ownership (of voting and nonvoting equity or other interests) by each direct holder. For partnerships and limited liability companies, the specific partner or member interest should be provided (i.e., general or limited partner, managing or non-managing member).

To determine the appropriate percentage to report, round the actual number down to the nearest whole percentage. For example, a percentage of 79.85 should be rounded down to 79.

Note: There are two exceptions to this rounding rule: when the percentage is greater than 50 but less than 51, report the percentage as 51, or if the percentage is greater than 0 but less than 1, report the percentage as 1.

As described below the FR Y-6 Organization Chart may have companies in addition to those reportable on the FR Y-10. The top-tier holding company may choose how to report those differences using one of the following two options. One option is a single organization chart, annotated to indicate those companies reportable on the FR Y-6 Organizational Chart, but not reportable on the FR Y-10. Option two is an organization chart showing the companies that are solely reportable on the FR Y-10 and a separate listing that shows companies that are reportable on the FR Y-6 but are not reportable on the FR Y-10.

Companies reportable on the FR Y-10 and thus reportable on the FR Y-6:

- (1) Top-tier holding companies organized under U.S. law, regardless of financial holding company status;
- (2) Foreign banking organizations that do not meet the requirements of and are not treated as qualifying foreign banking organizations under section 211.23 of Regulation K;
- (3) Holding companies, U.S. banks, savings associations or foreign banking organizations in which a Reporter directly or indirectly in the aggregate controls, owns, or holds, more than 5 percent of any class of voting securities,² or which the Reporter otherwise directly or indirectly controls;
- (4) Companies other than holding companies, U.S. banks and savings associations or foreign banking organizations ("Nonbanking Companies" for purposes of the FR Y-6) that the Reporter controls directly or indirectly.³ This includes financial and other nonbank subsidiaries of banks and savings associations controlled by a bank holding company;

² In general, a Reporter is considered to control all securities which it or its subsidiaries have the power to vote, but not securities held in a fiduciary capacity. However, securities held by a Reporter (or its subsidiary) as fiduciary are deemed controlled by the Reporter if the securities are held for the benefit of employees, securities holders, members, affiliates of the Reporter or any Reporter subsidiary, or if the securities are of a holding company, bank or savings association organized under U.S. law and the Reporter has directly or indirectly had the sole power to vote the securities for more than 2 years. In addition, a security that is convertible into a voting security at a holder's option is deemed to be a share of the class into which the security is convertible. The holding company should check to see if any other basis for control exists (such as a management agreement or the power to control the election of a majority of directors).

³ To determine whether one company controls another company, apply the standard for control as defined in the glossary of the FY - 10.

- (5) Large banking and insurance company investments made by an affiliate of a financial holding company are reportable if the financial holding company and its affiliates on a combined basis acquired more than 5 percent of the voting securities, assets, or ownership interest of a company engaged in a nonfinancial activity at a cost that exceeds the lesser of 5 percent of the parent financial holding company's Tier 1 capital (or total capital for FR Y-9SP filers) or \$200 million;
- (6) Any entity not mentioned above that is required to file a regulatory financial report with the Federal Reserve System; and
- (7) Any company (even if it does not otherwise meet the reporting criteria) that is both a subsidiary of the Reporter and parent of a reportable company.

This list of companies reportable on the FR Y-10 includes a Reporter's directly or indirectly held subsidiaries that are direct or indirect holders of any of the above companies.

Additional companies reportable on the FR Y-6:

For bank holding companies and U.S. intermediate holding companies, include Nonbanking Companies in which the Reporter directly or indirectly in the aggregate controls 5 percent or more, but less than 25 percent of the outstanding shares of any class of voting securities ($\geq 5\%$ to $< 25\%$).

For savings and loan holding companies, include Nonbanking Companies in which the Reporter directly or indirectly in the aggregate controls 5 percent or more, but less than or equal to 25 percent of the outstanding shares of any class of voting securities ($\geq 5\%$ to $\leq 25\%$).

With respect to such companies, a Reporter should not report the exact percentage of voting securities that it controls on the organizational chart. The Report only needs to indicate that the company is not reportable on the FR Y-10.

Companies not reportable on the FR Y-6 Organization Chart:

- (1) *Inactive Companies:* Any company that exists as a matter of law, but does not engage in any business activity. The company becomes reportable once it begins to engage in business. Note that inactive companies include companies that have been set-up as name-saving organizations or have been formed or incorporated but do not yet conduct any business activity. Any company that is inactive as of the end of the reporting period does not need to be reported on the FR Y-6;
 - (2) *Companies Held by a Small Business Investment Company:* Any company controlled directly or indirectly by a Small Business Investment Company that is registered with the Small Business Administration, unless the interest in the company is a reportable merchant banking or insurance company investment on the FR Y-10;
-

- (3) *Debts Previously Contracted:* An interest in a nonbanking company acquired to secure or collect a debt previously contracted or in a nonbanking company that solely holds assets acquired in satisfaction of a debt previously contracted. A company that holds only foreclosed properties should not be reported. Contrarily, a company that holds a mixture of foreclosed properties and nonperforming loans that are not yet in default should be reported.
- (4) *Interests Held as Collateral:* Interest held solely as collateral securing an extension of credit.
- (5) *Companies Controlled Through an Insurance Underwriter:* Any nonbanking company organized under U.S. federal or state law, if controlled directly or indirectly by an insurance underwriter. This exception does not apply to any of the following: (a) a Nonbanking Company that is the underwriter's highest-tier provider in the U.S. of any primary line of insurance, (b) a Nonbanking Company required to file a financial report with the Federal Reserve System, or (c) any interest that is a reportable merchant banking or insurance company investment;
- (6) *Advising and Administering a Mutual Fund:* Note that advising and administering a mutual fund does not by itself constitute a reportable interest of a Reporter in a fund;
- (7) *Special Purpose Vehicles (SPV):* Any company formed for specific leasing transactions, such as a special purpose vehicle engaged in a single leasing transaction;⁴
- (8) *Companies Required to be Conformed or Divested:* Any company which must be divested, or the activities of which must be conformed, pursuant to Sections 4(a)(2) or 4(n)(7) of the Bank Holding Company Act and Section 10(c) of the Home Owners' Loan Act, or pursuant to a commitment made to the Board or the Federal Reserve Bank (see also 12 CFR 225.85);
- (9) *Other Merchant Banking or Insurance Company Investments:* Unless such an investment is reportable on the FR Y-10 (see above), it is not reportable on the FR Y-6; and
- (10) *Public Welfare Investment.* Public welfare investments subject to prior-notice or post-notice filing requirements with federal banking agencies (such as a CD-1 or H-6), if held through a company that has been reported on the FR Y-10 and that is principally engaged in community development or public welfare investment activities.

See Appendix A for a sample organization chart.

RESPONSE:

⁴ Note that an interest in a Variable Interest Entity (as defined in ASC Subtopic 810-10, Consolidation – Overall (formally FASB Interpretation No.46 (Revised), *Consolidation of Variable Interest Entities*, as amended by FASB Statement 167, *Amendments to FASB Interpretation No. 46(R)*) typically will not be reportable on either the FR Y-6 or FR Y-10 so long as the Reporter does not control the entity.

Report Item 2b: Domestic Branch Listing

A few weeks after a Reporter's fiscal year-end, a list of domestic branches (henceforth referred to as a branch report) of each domestic depository institution and Edge and agreement corporations within the Reporter's organization will be available for download at <http://structurelists.federalreserve.gov/>. If a Reporter has questions on accessing its branch report, the Reporter should contact its local Federal Reserve Bank. The Reporter is required to verify and reconcile the branch report(s) against the actual domestic branches of each depository institution, including Edge and agreement corporations that were in operation as of its fiscal year-end. Any corrections, including closures, openings, and additions to the branch report(s) shall be submitted with the FR Y-6 report by the deadline date. Additionally, the verification of all branch structure data, including any corrections, shall be reported to the appropriate Federal Reserve Bank using the same format provided by the Federal Reserve Bank.

Information is required for all reportable domestic branches and offices (henceforth referred to as branches). Domestic branches are defined as: 1) branches located in the fifty states of the United States, which are branches of the U.S. depository institutions; and 2) branches located in the U.S. territories, which are located in the same territory as their head office depository institution. A FR Y-10 report is also necessary to report branch changes.

For purposes of this report item, a branch is any location or facility of a domestic depository institution, including the main office, where any of the following occur: accounts are opened, deposits are accepted, checks are paid or loans are granted. Reportable branches include, but are not limited to: brick and mortar locations, drive-in facilities, mobile/seasonal offices, offices on domestic or foreign military bases of government installations, paying or receiving stations or units (not stand-alone Automated Teller Machines (ATMs)), and Internet and Phone Banking locations where a customer can open accounts, make deposits or borrow money.

The following information should be verified for each branch:

- Popular name of the branch (please include the word mobile in the popular name of a mobile office),
- Date the branch opened, closed, or experienced a change,
- Street address (post office boxes are not appropriate),
- City,
- County,
- State or province,
- Country,
- Zip or postal code, and
- Applicable branch service type.

Branch Service Type

The following branch service types should be verified for each branch.

Full Service - A branch that accepts deposits, makes loans, opens/closes accounts, has a loan officer and full-time staff on site, maintains normal hours, and may have safe deposit facilities on site. The site may be owned or leased by the institution or located in a retail facility such as a supermarket.

Limited Service - A branch that accepts deposits and payments; however, it may not offer other services. Examples include a Military Facility that operates on a military base for the sole purpose of cashing military and government payroll checks, a drive-through facility that can accept deposits and make payments but may not offer other services, a mobile/seasonal or otherwise temporary branch that may not have a fixed location or is only open for a limited period, or a limited service facility located in a retail establishment. When reporting the current address for a mobile branch, use the address of the main office.

Trust - An office that only conducts trust activities and does not accept deposits.

Electronic Banking - A facility with phone, PC, and/or website services through which customers can open accounts, apply for loans, make fund transfers into accounts and other types of electronic transactions from a remote location.

NOTE: For Electronic Banking branches, the current address should be the same as that of the operations center that performs the back room operations associated with this activity.

Note: A branch does not include Administrative offices, Loan Production offices, Consumer Credit offices, stand-alone ATMs, Contractual offices, Customer Bank Communications Terminals (CBCT) and Electronic Fund Transfer Units (EFTU).

RESPONSE:

Domestic Branch listing submitted with the FR Y-6 report.

Report Item 3: Securities Holders

The top-tier holding company must file Report Item 3. In a multi-tiered holding company organization the top-tier holding company must also submit as part of its FR Y-6 a separate Report Item 3 for each lower tier holding company.

- (1) List each securities holder, of record, that directly or indirectly owns, controls, or holds with power to vote 5 percent or more of any class of voting securities of the holding company as of the fiscal year end of the holding company. In addition, list each person, entity, or person acting in concert (including families⁵), that holds options, warrants or other securities or rights that can be converted into or exercised for voting securities, which, in their aggregate, and including voting securities currently held, would equal or exceed 5 percent of any such class of voting securities. When calculating the ownership percentage, please use the following formula:

$$\text{Ownership} = \frac{(\text{Individual's Voting Shares} + \text{Individual's Options and Warrants})}{(\text{Total Outstanding Voting Shares} + \text{Individual's Options and Warrants})}$$

Please keep the following in mind regarding options and warrants:

- (i) When calculating ownership for an individual, look only to that individual's options and warrants, and
- (ii) Options and warrants are counted whether they are unexercised or "out of the money."

When the shares of the holding company are held by a nominee or in street names, list beneficial owners to the extent information is available. For holding companies that are partnerships, list each partner who has a 5 percent or more ownership interest. Include all general partner interests in each reportable holding company. Also, include warrants issued through the Trouble Asset Relief Program Capital Purchase Program (TARP CPP) by the U.S. Treasury to purchase shares of common stock of public holding companies. Small Business Lending Fund (SBLF) investments of 5% or more are reportable in Report Item 3 and should be treated similar to TARP CPP. The SBLF program and TARP CPP have similar funding mechanisms and regulatory reporting requirements. (See the TARP CPP and SBLP programs at the U.S. Treasury website: <http://www.treasury.gov/Pages/default.aspx> for details on the warrants.)

For each securities holder, include any entity listed above, provide the following:
