7-Day Moving Average of the Google Mobility Index in Major Advanced Economies

NOTES: Categories from the Google Mobility Index included in the 7-day simple average are retail & recreation, grocery & pharmacy, transit stations, and workplaces. Data last updated May 20, 2022.

SOURCE: Google Mobility Index, https://www.google.com/covid19/mobility/.
Oxford Stringency Index in Major Advanced Economies

NOTES: Data last updated May 20, 2022. COVID-19 tests per case is equal to the 7-day moving average of the number of tests divided by the number of cases per day.

SOURCE: Our World in Data (OWID).
Indicators of Real Activity
Chart 1. Global GDP Growth

NOTE: The advanced economies (ex. U.S.) aggregate includes the Euro Area, Japan, the U.K., Canada, Australia, South Korea, Switzerland and Sweden. The emerging economies aggregate includes China, Brazil, Russia, India, Mexico, Indonesia, Turkey, Argentina, South Africa and Colombia. The world aggregate includes these countries, which make up approximately 80 percent of world GDP computed using purchasing power parity (PPP)-adjusted GDP weights.
NOTE: Countries included in the industrial production index are all members of the Organization for Economic Cooperation and Development, or OECD (Australia, Austria, Belgium, Canada, Chile, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, South Korea, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, United Kingdom and United States).

SOURCES: OECD; Haver Analytics

Globalization Institute
Federal Reserve Bank of Dallas
Chart 3. Global Purchasing Managers Index

NOTE: This index measures purchasing managers' perspectives of current business conditions. An index value greater than 50 indicates economic expansion from the previous month, while a value below 50 indicates contraction.
Chart 4. Unemployment in Major Advanced Economies

NOTE: The chart plots harmonized unemployment data for the U.K.

SOURCES: National Statistical Offices, EUROSTAT; Haver Analytics
Chart 5. Unemployment in OECD Economies

Last Observation: Mar = 5.4

SOURCES: OECD; Haver Analytics

Globalization Institute
Federal Reserve Bank of Dallas
Chart 6. Volume of World Merchandise Trade

Index, 2000 = 100

NOTE: This series includes data from 23 industrialized and 60 emerging market economies and covers approximately 97 percent of total world trade. Trade volume is calculated as the arithmetic average of world export volumes and world import volumes.

Last Observation: Feb = 201.66

SOURCES: Netherlands Bureau for Economic Policy Analysis; Haver Analytics

Globalization Institute
Federal Reserve Bank of Dallas
Chart 7. Volume of World Merchandise Trade

Index, 2000 = 100

Imports

Exports

NOTE: Import and export series include data from 23 industrialized and 60 emerging market economies and cover approximately 97 percent of total world trade.

SOURCES: Netherlands Bureau for Economic Policy Analysis; Haver Analytics
NOTE: The Baltic Dry Index is a maritime shipping index that measures charter rates for shipping dry bulk commodities such as coal, grain and iron ore.
Inflation Indicators
Chart 9. Commodity Prices

Index, Jan. 2007 = 100

- Precious Metals (May 23 = 272.9)
- Agriculture and Livestock (May 23 = 198.8)
- Energy (May 23 = 183.1)
- Industrial Metals (May 23 = 119.0)

SOURCES: Goldman Sachs; Haver Analytics

Chart 10. Inflation in OECD Economies (CPI)

Percent, Year/Year

Headline Inflation (Mar = 6.4)
Core Inflation (Mar = 6.1)

NOTE: The headline consumer price index (CPI) is the broadest measure of price changes consumers face in their day-to-day living expenses. The core CPI excludes energy and food prices.
Chart 11. Global Inflation (Headline CPI)

Percent, Year/Year

- World (Mar = 6.4)
- Advanced Economies (Mar = 6.1)
- Emerging Economies (Mar = 6.6)

NOTES: Calculations are based on a representative sample of 40 countries. Aggregated using U.S. trade weights.

SOURCES: Database of Global Economic Indicators; Haver Analytics.
Chart 12. Inflation in Major Advanced Economies (Headline CPI)

U.S. (Apr = 8.2)
Euro Area (Apr = 7.5)
Japan (Apr = 2.5)
U.K. (Apr = 9.0)
Canada (Apr = 6.6)
Chart 13. Inflation in Major Emerging Economies (Headline CPI)

- Brazil (Apr = 12.5)
- Russia (Apr = 17.8)
- India (Mar = 5.4)
- Indonesia (Apr = 3.5)
- China (Apr = 2.1)
- South Africa (Apr = 6.0)

Monetary Policy
Chart 22. Central Bank Policy Rates in Major Advanced Economies

NOTES: The chart plots the federal funds rate for the U.S., the main refinancing operation rate for the Euro Area, the base rate for the U.K., the overnight target rate for Canada and the uncollateralized overnight call rate for Japan applied until April 3, 2013, before the main operating policy target changed to expanding the monetary base. On February 16, 2016, the Bank of Japan (BoJ) adopted negative interest rates applied to excess reserves that financial institutions hold at the BoJ. The Bank also introduced an interest rate target of around 0 percent for its 10-year government bond yields in September 2016.

SOURCES: National Central Banks; Haver Analytics
NOTE: The Reserve Bank of India utilizes the repo rate to inject liquidity into the monetary system and the reverse repo rate to remove liquidity. On August 19, 2016, the Bank of Indonesia changed its policy rate from the BI rate to the 7-day reverse repo rate.

Chart 29. Nominal Value of the U.S. Dollar

Index, Jan. 2000 = 100

NOTE: Countries or regions whose currencies are included in the major currencies index are the Euro Area, Canada, Japan, United Kingdom, Switzerland, Australia and Sweden. Countries included in the other important trading partners index are Mexico, China, Taiwan, Korea, Singapore, Hong Kong, Malaysia, Brazil, Thailand, Philippines, Indonesia, India, Israel, Saudi Arabia, Russia, Argentina, Venezuela, Chile and Colombia. An increase in each index represents an appreciation of the U.S. dollar and a decrease represents a depreciation.

SOURCES: Federal Reserve Board; Haver Analytics
Chart 30. Real Value of the U.S. Dollar

Index, Jan. 2000 = 100

- Real Exchange Value of the U.S. Dollar (Apr = 108.7)
- U.S. Dollar vs. Major Currencies (Apr = 115.2)
- U.S. Dollar vs. Other Important Trading Partners (Apr = 104.5)

NOTE: Countries or regions whose currencies are included in the major currencies index are the Euro Area, Canada, Japan, United Kingdom, Switzerland, Australia and Sweden. Countries included in the other important trading partners index are Mexico, China, Taiwan, Korea, Singapore, Hong Kong, Malaysia, Brazil, Thailand, Philippines, Indonesia, India, Israel, Saudi Arabia, Russia, Argentina, Venezuela, Chile and Colombia. An increase in each index represents an appreciation of the U.S. dollar and a decrease represents a depreciation.
