Your Texas Economy
Texas Economy

Texas produces 9 percent of U.S. GDP, second only to California.

Texas has a large and diverse workforce made up of 15 million workers.

Texas is younger and growing faster than the nation.
Overview of Texas Economy

- Texas employment grew 1.1 percent annualized in August – a slower pace than July (2.5 percent). Employment grew 4.3 percent in 2022.
  - U.S. job growth in August (1.4 percent) was above Texas, but Texas job growth in 2023 is still outpacing the nation.
  - Service sector revenue growth remained strong, while manufacturing production contracted further.
  - Unemployment rate declined sharply since April 2020 peak but has since increased. The rate held at 4.1 percent in August.
- The Dallas Fed’s Texas employment forecast indicates that jobs will increase 2.9 percent in 2023.
