

# Project VIDA HEALTH CENTER

*Life In Community • Vida En Comunidad*

# El Paso County and Surrounding Areas

# We begin with community...

# Priorities: Housing, Health Care, Education, Economic Development

# Project Vida

Seeks to work with communities to identify their vision for their future, the obstacles they face, and to work with them to move towards their vision in the widest possible context.

As a result, we are engaged in many areas that communities have identified as priorities – housing, homeless prevention and recovery; education, afterschool programs, economic development, health and wellness.
