Upcoming FR 2900 Seminar
The Statistics Department of the Federal Reserve Bank of Dallas offers free deposit report seminars! These one-day events are full of essential information you need to know in order to accurately file your FR2900 report. Seminars for 2014 will be announced during fourth quarter.

For more information, visit http://www.dallasfed.org/banking/reporting/index.cfm, and click on “Seminars.” Online registration will begin approximately six weeks prior to the seminar date. An email reminder will be sent when registration opens. If you are not already on our mailing list, please contact us at FR2900Workshop@dal.frb.org, or you can also contact your analyst to confirm that we have your current email address.

Looking for Article Ideas
If you have an FR 2900 issue that keeps you up at night and would like us to address it in a future article, we would love to hear from you! Please email your ideas to the editor at Monetaryreports@dal.frb.org.

Exemption and Low Reserve Tranche Levels for 2014
The Board of Governors has announced the 2014 annual indexing of the reserve requirement exemption amount (the amount reservable at 0 percent) and the low reserve tranche (the amount reservable at 3 percent). The new amounts are:

- Reserve requirement exemption amount: $13.3 million
- Low reserve tranche: $13.3 million through $89.0 million
- Balances over $89.0 million are reserved at 10 percent

The 2014 amounts go into effect with the maintenance period beginning Thursday, January 23, 2014. For weekly reporters this corresponds with the 14-day computation period that begins Tuesday, December 24, 2013. For institutions that report deposit data quarterly, this maintenance period corresponds to the seven-day computation period that begins Tuesday, December 17, 2013. To view the official press release, please go to http://www.federalreserve.gov/newsevents/press/bcreg/20131105a.htm

For more information regarding reserve requirements, please contact the Reserve and Risk Management Division that is responsible for your institution.

The Weekly FR 2644
An Important Tool in Monetary Policy
The Weekly Report of Selected Assets and Liabilities of Domestically Chartered Commercial Banks and U.S. Branches and Agencies of Foreign Banks (FR 2644) collects weekly data on the outstanding amount of selected balance sheet items, including items on loans, securities and borrowings, from a sample of member and nonmember domestically chartered commercial banks and U.S. branches and agencies of foreign banks. Data collected on this report parallel the quarterly Consolidated Reports of Condition and Income (Call Report). The appendix to the instructions for the FR 2644 demonstrates the direct relationship between the FR 2644 and the various Call Reports filed by financial institutions.

Data from this report are used in conjunction with other data to construct estimates of bank credit, sources and uses of bank funds, and a balance sheet for the entire banking system. These statistics are used to analyze current banking and monetary conditions.

The FR 2644 originated in January 1946 as a monthly report and has undergone numerous revisions in response to changes in economic and banking conditions, regulations and economic policy. The current report form collects 34 data items and is designed to provide flexibility in analyzing weekly reported bank balance sheet data.

The data obtained from the FR 2644 are instrumental to providing real time insight into trends in banking, which help shape the Federal Open Market Committee’s (FOMC’s) decisions regarding monetary policy. The data are also published weekly, in aggregate, on the Federal Reserve System’s web site as statistical release (H.8) - Assets and Liabilities of Commercial Banks in the United States.

For questions regarding the FR2644, please contact Jim Foster at jim.foster@dal.frb.org.
Holidays

We all love holidays! When one occurs during the report week, please report according to the scenario below that best describes your institution's procedures.

- **President's Day**  Monday, February 17, 2014

IESUB Account Cleanup

It is important that Statistics staff analysts be able to reach reporting contacts at all of our depository institutions. We strive to maintain our contact records with the utmost accuracy, but we need your help! We ask you to notify us as soon as possible whenever any of the following occurs:

- Change in email, phone or mailing address
- Change in assignments (no longer preparing the FR2900/FR2900q/FR2910a)
- Adding/changing backup contact for preparation of any reports
- Contact(s) no longer works at the institution

Please forward to us the updated information, including the new contact’s name, phone number, extension, email address and fax number. Also, any new contact who will submit your report electronically needs to complete the authorization forms for access to IESUB. Thank you for your cooperation.

Electronic Reporting

Quarterly reporting is just around the corner, and there are still a small percentage of institutions faxing their reports to us. While faxing your report to the Fed remains optional on some reports, we would like for you to consider giving IESUB a try when submitting your reports.

Our support team will do their very best to make this transition as quick and easy for you as possible. All we need is a completed IESUB User Request Form for each person at your institution wanting access. The information on the request form is needed in order for us to create your new username and password. To submit reports other than the quarterly FR2900, you need to complete a separate form. The best part is that regardless of how many reports you file you only need one username and one password.

To get started, give one of your support staff listed below a call to receive a personalized IESUB User Request. You can also use the link below to access a blank user form. Fax all completed forms to 214-922-5394 or 214-922-5395.

The Importance of an Active IESUB Account

Have you ever tried to log into IESUB and received a message informing you that the information you entered is no longer valid? This means that your account has been disabled. Your account’s status should always be “enabled”; otherwise, you’re at risk of having your account closed. Accounts disabled in this manner are deleted after one year.

Keeping your account enabled is easy to do. Just log into IESUB with your user name and password at least once a month. If you do not log on every 30 days, your account will expire or be disabled. Once your account expires, you will have to reset your password or contact us to reset it for you. If you fail to reset your password, your account will automatically be deleted one year after it has been disabled. To reactivate your account, you will need to complete the paperwork required to create a new account. Contact us if you have questions on this or any other IESUB support issues.
